

First Visit Expectations

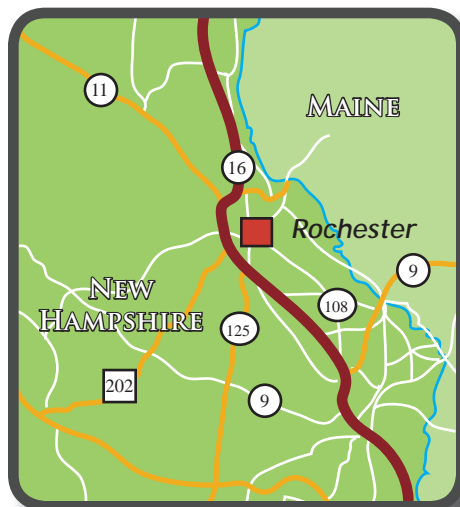

Our job begins well before you arrive for your first appointment. From gathering referral information, verifying insurance coverage, to convenient scheduling, our staff covers the bases to ensure a worthwhile first visit.

Insurance

The members of the Rehab 3 Network are participating providers with most insurance companies. For more information about insurance coverage, please contact our facility directly.

Financial Assistance

At Rehab 3 we aim to make therapy services available to all patients regardless of their financial means. To do this we offer our Financial Assistance Program to ensure everyone who qualifies has access to the care they need. Just ask if you qualify when scheduling your first appointment.

One Facility... Comprehensive Pediatric Services

Location and Facility

With easy access, The Center for Pediatrics, located within Frisbie's South Main Street Campus (95 South Main Street), is solely dedicated to children and their families. This facility has state of the art equipment, a sensory integration room, and patient care observation areas. Our family-focused intervention considers not only the needs of the child, but of the whole family. Parents are encouraged to collaborate with therapists during treatment sessions.

Our Team

Our team consists of highly trained and committed therapists that work together to achieve the highest outcomes. We offer Physical Therapy, Occupational Therapy and Speech Therapy. This team of professionals approaches their jobs with enthusiasm and knowledge. All services are delivered in a family oriented approach to empower caregivers to carryover treatment into daily life, helping every child reach his or her full potential.

Services Provided

Evaluations are the first step in receiving services. All evaluations performed at the Center involve parent interview, clinical observation, and standardized testing. Evaluations can be used for a variety of reasons:

1. Diagnostic workup
2. Determine need for school based services
3. Establish a treatment plan for private therapy services.

Treatment at the Center for Pediatrics is family centered and primarily 1:1. Parent and caregiver education is a crucial piece of therapy, to ensure children develop new skills that they can use in any situation. Parent input to the treatment process is valued.

The Center for Pediatrics strives to provide awareness, education and superior service to the parents and children of the Greater Rochester Community. We are committed to providing the highest level of treatment and support to each of our families. Therapists involved in The Center for Pediatrics at Rehab 3 at Frisbie regularly attend continuing education to learn the

latest treatment techniques and to expand the service we provide.
